Spacious 60m² Granny Flat Designed for Modern Australian Living

A smarter way to make more of your backyard.

The Wattle 60 is a spacious 60m² granny flat designed for Australian homeowners looking to create a comfortable, independent living space in their backyard.

With generous living areas, a practical layout, private bedroom accommodation and a strong connection to the outdoors, the Wattle 60 is designed to suit the changing needs of Australian families.

Whether you're considering a granny flat for rental income, accommodation for family, a private guest residence or a flexible backyard investment, the Wattle 60 provides the space and functionality to make your backyard work harder for you.

MORE THAN A GRANNY FLAT

A well-designed backyard dwelling can provide much more than additional floor space.

The Wattle 60 has been designed around the way Australians increasingly use their homes and backyards — combining independent living, privacy, functionality and outdoor connection.

Ideal for:

Rental Accommodation

Create an independent backyard residence that can potentially provide an additional rental opportunity, subject to local planning, building and rental requirements.

Multi-Generational Living

Give parents, adult children or extended family their own private and comfortable space while remaining close to the main home.

Guest Accommodation

A generous private residence for visiting family and friends.

META DESCRIPTION

Explore The Wattle 60, a spacious 60m² granny flat designed for modern Australian living, family accommodation and potential rental use. Customise your Victorian backyard home.

NEXT STEP

Let's Design Your Space Together.

Every property is different. Our team will guide you through layouts, finishes, council requirements and pricing to help create the perfect backyard space.
